

UTP Category 6 Cable with Messenger Wire

This UTP Category 6 cable features a 4-pair configuration and a messenger wire for added support during installation. It is designed for high-speed data transmission in structured cabling systems, ensuring reliable performance for Ethernet networks.

Product Overview

High-Performance Data Transmission

This UTP Category 6 cable is engineered for reliable high-speed data transmission in structured cabling systems. Featuring a robust 4-pair twisted configuration, it effectively minimizes crosstalk to ensure superior signal integrity across Ethernet networks. The addition of a messenger wire provides enhanced tensile strength, making it an ideal solution for outdoor or long-span installations requiring extra physical support.

Technical Specifications

Category

Cat 6

Cable Type

UTP (Unshielded Twisted Pair)

Configuration

4 pairs

Key Features

Messenger Wire, High-Speed, Color-coded, Structured Cabling
