Product Overview

High-Performance UTP Ethernet Cabling

This Unshielded Twisted Pair (UTP) Ethernet cable is designed for reliable data transmission in professional networking environments. Featuring four twisted pairs of copper wires, it ensures signal integrity and durability through high-quality HDPE insulation. The inclusion of a rip cord facilitates efficient jacket removal, making installation and termination quick and precise for network technicians.

Technical Construction

Color Coding

- Orange/White
- Green/White
- Blue/White
- Brown/White

Total Conductors	8
Insulation Material	HDPE (High-Density Polyethylene)
Key Features	Unshielded Twisted Pair, Rip Cord Included, Color-coded Wiring

Design

Jacket Color

White • Gray
