

UTP Ethernet Cable

This UTP Ethernet cable is designed for data transmission in Ethernet networks. It features four pairs of insulated copper wires twisted to minimize electromagnetic interference.

Overview

High-Performance UTP Ethernet Cable

This Unshielded Twisted Pair (UTP) cable is engineered for reliable data transmission in professional Ethernet networks. Featuring four pairs of precision-twisted insulated copper wires, the design effectively minimizes electromagnetic interference for stable connectivity. With a durable PVC jacket, this cable offers the ideal balance of protection and flexibility required for diverse networking installations.

Technical Details

Color-Coded Pairs

- Brown/White
- Blue/White
- Green/White
- Orange/White

Conductor Type	Solid Copper
Cable Construction	4 Twisted Pairs
Jacket Material	PVC

Features

Interference Protection

Twisted Pair Design • Reduced EMI

Applications	Ethernet Networks, Data Transmission
