

UV Light Insect Killer

This mosquito killer lamp is designed to effectively eliminate mosquitoes and other flying insects. It features a cylindrical body with a UV light to attract insects, trapping and killing them with an internal mechanism.

Product Overview

Effective Insect Control

This UV Light Insect Killer provides a reliable and efficient solution for managing mosquitoes and flying insects in indoor environments. Utilizing a 360nm UV LED light to attract pests and a quiet DC motor fan to trap them, it operates effectively across areas ranging from 40 to 100 square meters. Its compact, lightweight design with an integrated handle makes it highly portable and suitable for homes or offices.

Technical Specifications

Power Consumption	5 W
Motor Voltage	DC 5V
Light Source	360nm UV LED
