Product Overview

Eco-Friendly Mosquito Control

This UV light mosquito trap offers a non-toxic, radiation-free solution for pest control, making it safe for use around infants and pregnant women. Utilizing advanced aerodynamic spiral airflow and UV light technology, it efficiently attracts and traps insects within a 60-80 square meter range. The device operates silently with a low-noise, pure copper fan, ensuring a comfortable environment while effectively eliminating mosquitoes.

Technical Specifications

Effective Coverage

60 sqm

Minimum Area

80 sqm

Maximum Area

Core Features

- Non-toxic and radiation-free
- Silent operation
- Anti-escape balance door
- Aerodynamic spiral airflow design
- Easy-to-clean lower cover

Product Dimensions

18 x 18 x 24.5 cm

Power Consumption

20 W
