

V12 Marine Diesel Engine 800-1200HP

This V12 marine diesel engine provides propulsion power for a variety of marine applications. It is available in power outputs ranging from 800hp to 1200hp.

Overview

High-Performance Marine Propulsion

This V12 marine diesel engine series is engineered for demanding commercial and industrial marine applications, offering a robust power range from 800 to 1200 HP. Available in both turbocharged (KT38) and turbocharged-aftercooled (KTA38) configurations, these engines are designed for reliability, long service life, and efficient propulsion. They are ideal for workboats, commercial vessels, and large yachts requiring dependable power under varying operational conditions.

Performance Specifications

Engine Performance Data

Engine Model	Rated Power (HP/RPM)	Max Power (HP/RPM)
KT38-M800	727/1744	800/1800
KT38-M600	546/1744	600/1800
KT38-M780	780/1800	780/1800
KTA38-M900	818/1744	900/1800
KTA38-M1000	909/1744	1000/1800
KTA38-M1200	1091/1744	1200/1800
