

Vacuum Cleaner Dust Bag

This disposable vacuum cleaner bag features a cardboard mounting plate with a circular opening. It is designed for use with compatible vacuum cleaner models.

Product Overview

High-Efficiency Vacuum Filtration

This disposable vacuum cleaner dust bag is engineered for reliable debris containment and air filtration during cleaning tasks. Featuring a standardized mounting plate with a reinforced circular opening, it ensures a secure fit within compatible vacuum systems. The design effectively traps dust and particulate matter, helping to maintain suction performance while protecting the internal components of the cleaning equipment.

Physical Specifications

Design Type	Disposable Dust Bag
Mounting Mechanism	Cardboard/Plastic Plate
Intake Port Shape	Circular

Compliance

Intended Application	Residential Cleaning, Commercial Cleaning, Vacuum Maintenance
