

# Vacuum Cleaner Dust Collection Bag

Disposable dust collection bag designed for vacuum cleaners. It is made of durable paper material for effective filtration of dust and debris and features a secure collar for easy installation and removal.

## Product Overview

### Professional Dust Collection Solution

This disposable dust collection bag is designed for high-efficiency debris capture in both household and commercial vacuum cleaning environments. Constructed from durable paper materials, it ensures reliable filtration performance while maintaining a hygienic workflow. The inclusion of a secure collar design facilitates rapid and mess-free installation and removal for busy cleaning professionals.
