

Vacuum Cleaner Head Attachment with Brush

This vacuum cleaner head attachment is designed for efficient cleaning. It features a pivoting neck for maneuverability and a brush head for effective dirt and debris removal.

Product Overview

Versatile Vacuum Attachment

This high-efficiency vacuum cleaner head attachment is engineered for professional and domestic cleaning environments. Featuring an integrated brush head, it excels at removing stubborn dirt and debris from various floor surfaces. Its durable plastic construction ensures longevity, while the built-in pivoting neck provides superior maneuverability for reaching tight corners and cleaning around furniture.

Technical Specifications

Model Number	cp-tb01
Material Composition	Durable Plastic
