

Vacuum Cleaner Head Attachment with Brush Control

This replacement head attachment is designed for vacuum cleaners. It features a wide rectangular base for cleaning floors and carpets, along with a pivoting neck and brush control switch.

Product Overview

Versatile Vacuum Head Attachment

This professional-grade vacuum cleaner head attachment is engineered for high-efficiency floor and carpet cleaning. Featuring a wide rectangular base and an integrated pivoting neck, it offers superior maneuverability in tight spaces. The built-in brush control switch with a textured grip allows users to quickly toggle between cleaning modes for optimal results on different floor surfaces.
