

Vacuum Cleaner Head Attachment with Brush

This vacuum cleaner head attachment is designed for use with a variety of vacuum cleaner models. It features a pivoting neck for maneuverability and a brush head for effective cleaning on different surfaces.

Product Overview

Versatile Cleaning Performance

This vacuum cleaner head attachment is engineered for enhanced maneuverability and effective debris removal across diverse floor types. Featuring a durable low-profile construction, it is specifically designed to reach deep under furniture where dust accumulates. The integrated adjustable vent allows users to precisely control suction power, ensuring optimal performance on both hard floors and carpets.

Technical Specifications

Model Identifier	cp-tb01
Construction Material	Durable Plastic

Key Features

Maneuverability	Pivoting Neck, Low-profile Design
Suction Control	Yes
Brush Head	Integrated cleaning brush
