

# Vacuum Cleaner Motor

This vacuum cleaner motor is designed for efficient and reliable operation. It features robust construction and delivers optimal suction power while maintaining low noise levels.

## ADDITIONAL IMAGES

## Overview

### High-Performance Vacuum Cleaner Motor

The HWX-CG57 is a robust, dry-type vacuum cleaner motor engineered for high efficiency and consistent performance. Designed for both household and commercial applications, it features durable internal components, including copper windings and high-quality bearings, to ensure a long operational lifespan. This motor delivers exceptional suction power and airflow, making it a reliable choice for vacuum cleaner manufacturers and maintenance services.

## Performance Metrics

### Key Performance Metrics

**1600 W**

Input Power

**22.5 Kpa**

Max Vacuum

**3.3 m3/min**

Max Airflow

**35 %**

Max Suction Efficiency

## Technical Specifications

### Electrical Characteristics

Parameter	Value
Rated Voltage	100-240 V
Frequency	50/60 Hz
Noise Level	< 98 dB
Spark Grade	< 2
Temperature Rise	115 K

## Dimensions

### Physical Dimensions

Component	Measurement (mm)
Total Height	113 ± 1
Top Width	126 + 1
Main Body Height	92.5 ± 1
Diameter 1	23.5 ± 0.5
Diameter 2	44.5 ± 0.5
Diameter 3	96 ± 0.5
Diameter 4	100.5 ± 0.5
Upper Section Height	11 ± 0.5
Lower Section Extension	6.5 ± 1
