

Vacuum Cleaner Motor 800W

This high-performance vacuum cleaner motor is designed for robust suction power and efficient operation. The motor is engineered for low noise and long-lasting reliability, making it suitable for a variety of vacuum cleaner models.

Product Overview

High-Performance Vacuum Cleaner Motor

This 800W vacuum cleaner motor is engineered for robust suction power and reliable performance in professional and domestic cleaning applications. Designed with durability in mind, it ensures efficient operation and serves as an ideal upgrade or replacement component. The unit is optimized for high-speed rotation and low-noise output to meet demanding cleaning standards.

Technical Specifications

Power Rating

800 W

Power

Operating Voltage

220-240V

Performance Features

High-Speed Rotation, Low Noise, Durable Construction

Compatibility & Use

Application

Replacement or upgrade for existing vacuum cleaner models
