

Vacuum Cleaner Paper Dust Bag

This disposable dust bag is made from durable paper. It features a cardboard collar for secure attachment to the vacuum cleaner's intake port, efficiently trapping dust and debris.

Product Overview

High-Efficiency Dust Filtration

These disposable vacuum cleaner bags are engineered from durable paper material to provide reliable containment of dust and debris. Featuring a precision-cut cardboard collar, the bag ensures a secure, airtight connection to the vacuum intake port for optimal suction efficiency. Designed for simplicity and cleanliness, the unit allows for straightforward disposal once full, significantly reducing mess during routine maintenance.

Technical Specifications

Primary Benefits

- Efficient dust and debris trapping
- Secure intake port seal
- Simplified disposal process
- Minimized maintenance mess

Construction Material	Durable Filter Paper
Attachment System	Cardboard Collar with Intake Opening
Maintenance Type	Disposable, Single-use, Easy Maintenance
