Product Overview

Versatile Replacement Power Solutions

This high-performance battery series is designed for a wide range of home and commercial appliances, including robotic and handheld vacuum cleaners. Engineered for reliability and longevity, these power packs ensure extended run times and consistent energy delivery. Whether for health care devices, blenders, or industrial equipment, these batteries provide a robust solution for your power replacement needs.

Technical Specifications

Battery Performance

3.7 V

Voltage

1500 mAh

Capacity

Supported Chemistries

Ni-MH, Lithium-ion

Applications

Compatible Appliances

- Robotic vacuum cleaners
- Handheld vacuum cleaners
- Blenders
- E-scooters
- Massagers
- POS machines
- UPS systems
- Shavers
- Hair pluckers
