Product Overview

Conductive Extension Wand

This conductive extension tube is designed to integrate seamlessly with vacuum cleaner systems, providing extended reach for cleaning tasks. Featuring a durable metallic finish in a distinct red hue, it includes integrated electrical contact points for powered attachments. The unit is equipped with a secure release mechanism, ensuring reliable connectivity and ease of use during operation.

Physical Characteristics

Color Finish	Metallic Red
Material Composition	Metal, Plastic

Mechanical Features

Design Elements

- Cylindrical body
- Gray plastic ends
- Red release button
- Pivoting lever

Release Mechanism	Yes
Connector Type	Electrical Conductive
