

Vacuum Packaging Machine

This single vacuum packing machine provides efficient and reliable packaging. Its stainless steel construction ensures durability and hygiene.

Overview

Professional Vacuum Packaging Solution

This single chamber vacuum packaging machine is engineered for high-efficiency, reliable sealing in commercial environments. Built with durable stainless steel, it ensures optimal hygiene and long-term performance. The unit features precise digital controls for vacuum and sealing adjustments, supported by an analog pressure monitor for consistent quality control.

Technical Specifications

Vacuum Pressure Range

100 KPa

Maximum Pressure

Control System

- Digital control panel
- Precise vacuum time adjustment
- Precise sealing time adjustment
- Analog pressure gauge

Construction Material

Stainless steel

Application & Benefits

Key Benefits

Airtight Sealing, Extended Shelf Life, Food Preservation, Hygienic Design
