

Vacuum Pump

This vacuum pump is engineered for applications needing a reliable vacuum source. It features robust construction, a durable motor, and a pump mechanism designed for quiet operation and long service life.

Overview

Reliable Vacuum Solution

This vacuum pump is engineered to provide a consistent and efficient vacuum source for a variety of demanding environments. Featuring robust construction with a durable motor, it is designed for both high performance and longevity. The unit operates quietly, making it an ideal choice for sensitive laboratory, medical, or industrial settings.

Performance

Key Performance Metrics

1 L/s

Pumping Capacity

0.1 Pa

Ultimate Vacuum

Technical Specifications

Motor Power	550 W
Operating Voltage	220V/50Hz

Applications

Suitable Environments	Laboratory, Industrial, Medical
-----------------------	---------------------------------

Features

Design Features

- Robust construction
- Quiet operation
- Durable motor mechanism
- Extended service life
