

Vacuum Sealing Packaging Machine

This packaging machine is designed for vacuum sealing a variety of products. It features stainless steel construction, a transparent lid, and an integrated control panel for adjusting vacuum and sealing times.

Overview

Professional Vacuum Sealing Solution

This robust vacuum sealing machine is engineered for high-performance airtight packaging across diverse industries, including food processing and electronics. Constructed from durable stainless steel, it features a transparent lid for precise process monitoring and an intuitive control panel for customizable vacuum and sealing settings. Safety is prioritized with an integrated emergency stop button, making it a reliable choice for professional-grade packaging requirements.

Technical Specifications

Control Capabilities

- Adjustable vacuum time
- Adjustable sealing time
- Transparent process monitoring lid

Model Identifier	PV-300
Construction Material	Stainless Steel
Safety Features	Emergency Stop Button, Vacuum Gauge

Applications

Suitable Industries

Food Packaging • Electronics • General Goods
