

Vacuum Sealing Packaging Machine

Industrial-grade packaging machinery designed for vacuum sealing applications. It creates an airtight and secure package, which is ideal for preserving food products, pharmaceuticals, and other sensitive materials.

Overview

Industrial Vacuum Sealing Solution

This industrial-grade vacuum sealing machine is engineered for high-performance packaging applications, ensuring airtight and secure storage for a wide range of sensitive materials. Built with robust stainless steel, it offers exceptional durability and meets rigorous hygiene standards suitable for food and pharmaceutical environments. The system features an intuitive control panel for precise operation and an integrated high-capacity vacuum pump to maximize efficiency during the extraction and sealing process.

Technical Specifications

Model ID	ZX-13
Construction Material	Stainless Steel
Mobility Features	Yes
Primary Applications	Food Preservation, Pharmaceutical Packaging, Sensitive Materials

Operational Features

Performance Highlights

1 High
Vacuum Pump Efficiency

Control System	User-friendly digital control panel
