

Variable Speed Angle Grinder

This angle grinder is a versatile power tool for grinding, cutting metal, stone, and wood. It has a variable speed regulator and a spindle diameter of M14.

Overview

Versatile Variable Speed Angle Grinder

This professional-grade angle grinder is engineered for versatility and precision across a wide range of material applications. Featuring an adjustable speed regulator, it allows users to tailor performance for tasks ranging from metal grinding and cutting to stone, wood, and masonry work. With a robust 600W motor and compatibility with 115/125mm discs, this tool is a reliable solution for demanding construction and fabrication environments.

Technical Specifications

Compatible Disc Diameter

- 115
- 125

Rated Power	600 W
Voltage Range	100-230V~
No Load Speed	0-11000 rpm
Spindle Diameter	M14

Features

Key Features

Variable Speed Regulator • Multi-Material Compatible

Suitable Applications	Metal Grinding, Metal Cutting, Stone Cutting, Wood Cutting, Wall Slotting
