

Variable Speed Belt Sander for Wood Plastic Metal

The power belt sander is designed for rapid material removal and surface preparation on wood, plastic, and metal. Featuring a robust motor for continuous operation, it offers variable speed control for adapting to different materials and applications.

Overview

Professional Grade Belt Sander

This variable speed belt sander is engineered for high-efficiency material removal and surface preparation across wood, plastic, and metal surfaces. Designed for continuous industrial operation, it features a robust motor and precise belt tracking to ensure consistent results. The inclusion of an ergonomic handle and an integrated dust collection system prioritizes user comfort and workspace cleanliness.

Key Features

Core Features

- Variable speed control
- Robust motor for continuous operation
- Belt tracking system for precise alignment
- Quick-release lever for fast belt changes
- Integrated dust collection bag

Target User

Professional Use • DIY Use

Compatible Materials

Wood, Plastic, Metal
