Overview

High-Efficiency Brushless Performance

This 20V variable speed cordless drill features a high-performance brushless motor designed for maximum efficiency and an extended service life. Its compact, ergonomic design delivers a high energy efficiency ratio, making it smaller yet stronger than conventional models. Equipped with an impact gearbox structure, this versatile tool is suitable for a wide range of professional drilling and fastening applications.

Core Performance

Performance Highlights

20 V

Rated Voltage

26 Nm

Maximum Torque

1450 RPM

Max Speed

Technical Specifications

No-load Speed	0-400 / 0-1450 RPM
Impact Frequency	0-6000 / 21750 times/min
Chuck Size	1-10 mm
Torque Adjustment	20+3 settings

Drilling Capacity

Maximum Drilling Diameters

Material	Capacity
Wood	30 mm
Metal	10 mm
Fastening	10 mm

Power & Charging

Charger Input Voltage	100-240V
Charger Power	26 W

Features

Functional Features

- Brushless motor technology
- Impact gearbox structure
- Variable speed trigger
- Forward/Reverse switch
- Keyless chuck
- Ergonomic grip
- Compact design

Motor Type

Brushless • High Efficiency
