

Variable Speed Drill Press

This drill press is designed for precision drilling in various materials. It features a robust construction that includes a cast iron base and column for enhanced stability and reduced vibration.

Overview

Professional Variable Speed Drill Press

The ZJW5125/2 is a high-performance variable speed drill press designed for precision drilling across various industrial materials. It features a robust cast iron base and column construction to ensure maximum stability and reduced vibration during operation. With its powerful 1100W motor and versatile speed control, this machine provides the consistency and power required for demanding workshop environments.

Performance

Performance Metrics

1100 W Motor Power	16 mm Chuck Capacity	152 mm Spindle Travel	450 mm Swing
------------------------------	--------------------------------	---------------------------------	------------------------

Operating Speeds

- 50Hz: 500-2000 r/min
- 60Hz: 600-2400 r/min

Technical Specifications

Technical Specifications

Feature	Specification
Spindle Taper	MT2
Speed Control	Variable
Column Diameter	80mm
Total Height	1750mm

Dimensions and Logistics

Physical Dimensions

- Working Table: 355 x 355 mm
- Base Size: 510 x 350 mm
- Packing Dimension: 1430 x 660 x 330 mm

Weight and Packaging

108 kg Gross Weight	98 kg Net Weight	90 pcs 20ft Container Capacity
