

# Variable Speed Impact Drill

This impact drill features variable speed control. It is suitable for drilling into wood, metal, and masonry.

## Product Overview

### Professional Variable Speed Impact Drill

This heavy-duty impact drill is engineered for versatility and precision across demanding job sites. Featuring variable speed control, it allows users to tailor performance to specific materials, ranging from wood and metal to masonry. The inclusion of an auxiliary handle ensures enhanced stability and control during operation, while the robust chuck provides secure bit retention for consistent, reliable results.

## Technical Capabilities

### Key Performance Metrics

**1 Enabled**

Variable Speed Control

### Suitable Materials

Wood, Metal, Masonry

## Design & Ergonomics

### Ergonomic Features

- Auxiliary handle for enhanced stability
- Robust chuck for secure bit retention
- Variable speed control trigger
