

Variable Speed Impact Drill

This impact drill is designed for various drilling applications. It features a robust motor, variable speed control, and an ergonomic design for comfortable handling.

Overview

High-Performance Impact Drill

This versatile impact drill is engineered for demanding drilling applications across wood, metal, and concrete. It features a robust motor designed for consistent power and precision, complemented by variable speed control to match the task at hand. The ergonomic design ensures comfortable handling during extended use, while the durable chuck and included side handle provide enhanced stability and secure bit retention for professional results.

Performance Features

Control & Precision

- Variable speed control
- Ergonomic handle design
- Side handle for stability

Suitable Materials

Wood, Metal, Concrete
