

Variable Speed Jigsaw for Wood, Metal, and Plastic

This jigsaw is a versatile power tool designed for cutting various materials with precision and ease. Featuring a powerful motor, it delivers optimal cutting performance for wood, metal, and plastic.

Overview

Versatile Cutting Performance

This variable speed jigsaw is engineered for precision cutting across wood, metal, and plastic. Featuring a robust 600W motor and adjustable speed control, it provides the flexibility needed for various professional applications. The tool-free blade change system and adjustable bevel footplate enhance efficiency and ease of use on the job site.

Technical Specifications

Rated Input Power

600 W
Power

No Load Speed 3000 r/min

Max Cutting Depth 65 mm

Features

Key Features

- Variable speed control
- Tool-free blade change system
- Adjustable bevel footplate (up to 45 degrees)
- Dust extraction port
- Ergonomic design

Supported Materials Wood, Metal, Plastic
