

Variable Speed Jigsaw for Wood, Plastic, and Metal

This jigsaw is designed for cutting various materials such as wood, plastic, and metal. It features variable speed control, a tool-free blade change system, and an adjustable base plate for bevel cuts.

Overview

Versatile Cutting Performance

This variable speed jigsaw is designed for precision cutting across wood, plastic, and metal surfaces. With a powerful 400W motor and adjustable 6-speed settings, it offers the flexibility needed for various fabrication tasks. The inclusion of an adjustable base plate allows for bevel cuts up to 45 degrees, making it a reliable tool for both professional workshops and demanding DIY projects.

Technical Specifications

Power Input	400 W
No-Load Speed	3000 rpm
Speed Control	6 levels

Cutting Capacity

Cutting Capacity by Material

Material	Max Depth
Wood	55mm
Steel	6mm

Features & Design

Plug Type	VDE Plug
Bevel Capacity	45 degrees
Cable Length	2 m

Packaging

Packaging	Color Box
