

Variable Speed Jigsaw with Bevel Cutting

This jigsaw is a versatile power tool designed for cutting various materials. It features an adjustable base for bevel cuts and variable speed control for different applications.

Overview

Versatile Precision Cutting

This variable speed jigsaw is engineered for high-performance cutting across a variety of materials, including wood and steel. Featuring a 710W motor and adjustable speed settings, it offers the control needed for both intricate work and heavy-duty tasks. The inclusion of a 4-stage cutting action and laser guidance ensures professional-grade accuracy for every project.

Technical Specifications

No-load Speed

800 rpm

Min Speed

3000 rpm

Max Speed

Power Input

710 W

Voltage/Frequency

220V/50Hz, 110V/60Hz

Cutting Performance

Maximum Cutting Depth

Material	Depth
Steel	8
Wood	80

Features

Key Features

- Variable speed control
- 4-stage cutting action
- Laser guide system
- Quick-fix blade system
- Bevel cutting capability
