

# Variable Speed Power Drill

This power drill features variable speed control with two settings: 0-800 rpm and 0-2000 rpm. It is ergonomically designed with a comfortable grip and auxiliary handle for enhanced control and precision.

## Product Overview

### Professional Variable Speed Drill

This high-performance power drill is engineered for versatility and precision in various drilling applications. It features dual-speed control settings to accommodate different materials and tasks, ensuring optimal performance. The tool is ergonomically designed with a comfortable grip and an auxiliary handle, providing enhanced control and reducing user fatigue during extended operation.

## Performance

### Variable Speed Settings

**800 rpm**

Low Speed Range

**2000 rpm**

High Speed Range

## Design & Ergonomics

### Key Design Features

- Ergonomic handle design
- Includes auxiliary handle for stability
- Variable speed control

### Application Types

Drilling, Precision Work, General Construction
