## Product Overview

### Professional Steam Ironing Solution

This high-performance variable-temperature steam iron is engineered for efficiency and safety in professional environments. Featuring a powerful ceramic soleplate and adjustable steam controls, it offers exceptional glide and wrinkle removal across a variety of fabrics. Equipped with essential safety functions like 3-way auto-off and anti-calc technology, this unit ensures reliable, long-lasting performance for daily garment care.

## Technical Specifications

### Performance Metrics

**2800 W**

Max Power Output

**40 g/min**

Steam Rate

**350 mL**

Water Tank Capacity

### Dimensions

Component	Size (mm)
Full Product	295 x 130 x 150
Soleplate	250 x 130

### Power Requirements

220-240V / 50-60Hz

## Features

### Safety Compliance

GS Certified • 3-Way Auto-Off

### Steam Output Details

- Spray function: e0.8g/shot
- Burst of steam: e1.0g/shot

### Key Capabilities

Vertical Jet Steam, Auto-Cleaning, Anti-Drip System, Anti-Calc Feature, Mechanical Temp Control
