

VDE Certified Power Cord with European Plug

This power cord is VDE (Verband der Elektrotechnik, Elektronik und Informationstechnik) certified. It is suitable for electric appliances with VDE standard.

Product Overview

Professional Power Connectivity

This European power cord is designed to meet strict electrical safety standards, featuring a VDE-certified plug with two poles and an earthing contact. Engineered for reliability in a 250V environment, it is suitable for a wide range of electrical appliances. The design incorporates a durable construction, ensuring stable power delivery and long-term performance for international applications.

Technical Specifications

Rated Current	16 A
Rated Voltage	250 V
Model Number	XR-322
Regulatory Standards	VDE0620, IEC60884

Logistics and Procurement

Certification
VDE Certified
