

Vehicle Pet Barrier with Storage Pockets

This vehicle pet barrier keeps pets safely confined to the back seat during drives. It features a mesh barrier to prevent pets from climbing into the front, along with storage pockets for organizing pet supplies.

Product Overview

Safety and Convenience Combined

The 2-in-1 Vehicle Pet Barrier is designed to keep pets safely confined in the back seat while driving, effectively preventing them from climbing into the front area. This barrier significantly reduces driver distraction and enhances overall vehicle safety. Beyond its primary function, it features integrated storage pockets for organizing essential pet supplies like toys, treats, and leashes.
