Product Overview

Maximize Your Vehicle Storage

This roof-mounted cargo carrier is engineered to significantly increase your vehicle's storage capacity for a more convenient travel experience. Featuring a fashionable, aerodynamic design, it minimizes wind resistance and noise to ensure a quiet and comfortable journey. Constructed from durable, non-toxic, and environmentally friendly materials, this carrier offers excellent resistance to extreme temperatures, making it a reliable solution for all your travel needs.

Technical Specifications

Maximum Capacity

600 L

Storage Volume

Key Design Elements

- Streamlined aerodynamic shape
- Noise-reduction engineering
- Self-designed easy-install accessories
- Secure locking mechanism

Material Characteristics

Non-toxic, High Temperature Resistant, Antifreeze Resistant, Durable
