

Vehicle Roof Rack Cross Bar

This robust cross bar is designed for vehicle roof rack systems. It provides a secure platform for carrying cargo like rooftop tents and sports equipment.

Overview

Versatile Cargo Solution

This robust roof rack cross bar system is engineered to provide a secure and stable platform for a wide variety of vehicle cargo. Designed with high-strength materials and a corrosion-resistant finish, it ensures long-lasting performance even in challenging weather conditions. The adjustable design offers broad compatibility with various vehicle models, while the aerodynamic profile helps minimize wind noise and drag for a smoother driving experience.

Technical Specifications

Suitable Cargo

- Rooftop Tents
- Luggage Carriers
- Sports Equipment

Key Features

Adjustable Design, Corrosion Resistant, Aerodynamic Profile, Integrated Mounting Points

Performance

Performance Highlights

0 Optimized
