

Vehicle Steering Tie Rod

This tie rod is a crucial component in a vehicle's steering system. It connects the steering gearbox to the steering knuckle, transmitting the force that turns the wheels.

Product Overview

Precision Steering Component

This vehicle steering tie rod is a critical component designed to ensure responsive and reliable steering performance. It effectively transmits force from the steering gearbox to the steering knuckle, allowing for precise wheel articulation during operation. Engineered for durability, this part helps maintain proper vehicle alignment, which is essential for safe handling and even tire wear.

Compatibility

Compatible Vehicle Models

- Datsun Pick Up 520#
- Datsun Pick Up 521#
- Datsun Pick Up 620#

OEM Reference Number	48630-B9525
----------------------	-------------

Production Years	1965-1979
------------------	-----------
