

Velcro Sanding Disc for Power Sanders

Sanding discs are designed for use with power sanders. They feature a durable abrasive surface and a Velcro backing for quick changes during material removal.

Product Overview

Professional Sanding Solution

This high-performance sanding disc is engineered for seamless integration with standard power sanders, providing efficient material removal across diverse surfaces. Featuring a robust Velcro backing, the disc allows for rapid, secure mounting and easy replacements during intensive sanding tasks. Designed for versatility, it is suitable for wood, metal, and various other materials, ensuring consistent results in demanding professional environments.

Technical Specifications

Key Features

- Durable abrasive surface
- Quick-change Velcro backing
- Multi-hole design for dust extraction
- Extended service life
