

Ventilation Equipment AC Motor

Compact AC synchronous motor designed for ventilation equipment. It features a robust metal housing with mounting flanges and color-coded wires for easy electrical connections.

Product Overview

Professional Ventilation Motor

This high-performance AC motor is engineered specifically for use in diverse ventilation systems and exhaust fans. With over two decades of manufacturing reliability, it offers a versatile solution that can be customized in size, performance, and color to meet specific operational requirements. Its robust design ensures consistent airflow and long-term durability for industrial and commercial air management applications.

Technical Performance

Operational Performance

40 W

Max Output Power

1400 rpm

Max Rotation Speed

Voltage and Frequency Specifications

Voltage (V)	Frequency (Hz)	Power (W)	Speed (rpm)
110	50	5~40	800~1400
110	60	5~40	800~1400
220	50	5~40	800~1400
220	60	5~40	800~1400
230	50	5~40	800~1400
240	50	5~40	800~1400

Key Features

Core Product Features

- Customizable size and performance
- Robust metal housing construction
- Color-coded wiring for easy integration
- Textured shaft for secure component attachment
- Universal mounting flanges
