

Ventilation Exhaust Fan

This high-performance electrical fan is designed for ventilation and exhaust applications. It features a durable construction with a metallic housing and aerodynamically optimized blades for efficient airflow.

Product Overview

High-Performance Ventilation Solution

This high-performance electrical fan is engineered for versatile ventilation and exhaust applications. Featuring durable metallic housing and aerodynamically optimized blades, it ensures efficient airflow and reliable operation. It is an ideal choice for both household and industrial environments, effectively circulating air and removing unwanted odors and pollutants.

Technical Specifications

Key Performance Metrics

1 Type

Low Noise Operation

Application Scope

Household, Industrial, Air Conditioning, Ventilation Equipment

Construction

Design Features

- Aerodynamically optimized blades
- Durable metallic housing
- Low-noise operation

Housing Material

Metallic
