

Ventilation Fan with Light Fixture

This compact fan is designed for ventilation and air circulation. It features a central light fixture and a silver-colored motor housing.

Product Overview

Ventilation and Lighting Solution

This versatile ventilation fan features an integrated light fixture, providing a dual-purpose solution for air circulation and illumination. Designed with a compact profile and six durable blades, it is engineered for efficient airflow in indoor environments. The silver-colored motor housing offers a clean, professional aesthetic suitable for various residential or commercial ventilation systems.

Technical Specifications
