Product Overview

Versatile Angle Grinder

This high-performance angle grinder is engineered for demanding metalworking tasks, including grinding, rust removal, and precision cutting. Built with a robust nylon shell and an advanced motor featuring high-temperature enameled wire, it offers exceptional durability and overload capacity. Designed for safety and efficiency, it incorporates a blowout-proof guard, an anti-self-locking switch, and an ergonomic non-slip grip for reliable operation in professional environments.

Key Features

Design Advantages

- 180-degree adjustable protective cover
- Small head case for compact spaces
- Non-slip skin texture housing
- High-strength nylon shell

Applications

Metal Grinding, Rust Removal, Metal Cutting

Technical Specifications

Safety Features

Anti-self-locking switch • Blowout-proof metal cover • Spindle lock

Performance Metrics

180 degrees

Guard Rotation

Construction

Build Quality

Component	Material/Feature
Machine Shell	High-strength nylon
Motor	High-temperature enameled wire
Cooling	Optimized air duct design
