Product Overview

High-Performance Vertical Adapter

This vertical adapter is engineered for seamless integration with PC200, PC300, and PC400 construction machinery models. Designed to facilitate robust vertical mounting, it ensures secure and reliable connections essential for demanding construction environments. Built from high-strength materials, this component is optimized for durability and long-lasting performance in heavy-duty applications.

Compatibility & Identification

OEM Part Numbers

- 205-939-7120
- 206-939-3120
- 208-70-34150

Compatible Machinery Models

PC200, PC300, PC400
