

Vertical Airflow Tower Fan

This tower fan is a compact and efficient cooling solution designed for personal or small space use. Its vertical design maximizes airflow while minimizing the footprint, making it suitable for offices, bedrooms, or living rooms.

Product Overview

Compact Cooling Solution

This vertical airflow tower fan is designed to provide efficient cooling for offices, bedrooms, and other small spaces. Its space-saving vertical footprint allows for seamless integration into various environments while providing adjustable intensity for personalized comfort. Built with durability and safety in mind, it features a stable base and quiet operation, ensuring a professional and comfortable atmosphere.

Technical Specifications

Safety Features

- Stable base
- Narrow protective grill

Cooling Modes

Adjustable speed settings, Oscillation function

Construction Material

Durable Plastic

Performance

Operational Noise

Quiet operation

Design Advantages

1 High

Portability Level
