

Vertical Multistage Centrifugal Pump

This vertical multistage centrifugal pump is designed for water boosting and liquid transfer applications. Constructed with stainless steel, it ensures durability and corrosion resistance.

Product Overview

Versatile Centrifugal Performance

This vertical multistage centrifugal pump is engineered for high-performance water boosting and liquid transfer tasks. Built with premium stainless steel, it offers exceptional durability and resistance to corrosion in demanding environments. Equipped with a high-efficiency motor, this unit ensures reliable operation while maximizing energy savings across industrial, agricultural, and municipal applications.

Technical Specifications

Series Models

- CDL 2
- CDL 4

Material	Stainless Steel
----------	-----------------

Performance Metrics

Key Applications

Industrial • Agricultural • Municipal • Water Boosting

Motor Type	High-Efficiency Motor
