Product Overview

Modern Vertical Heating Solution

This vertical panel radiator offers a contemporary heating solution designed for bathrooms, kitchens, and living spaces. Constructed from high-quality mild steel (SPCC / Q195), it features a robust welding patent for structural integrity and proper sealing. The unit supports both central hydronic and electric heating systems, ensuring versatility for various installation requirements.

Technical Specifications

Heating Compatibility

Central Hydronic • Electric

Material	Mild Steel (SPCC / Q195)
Finishing	Chrome Plating, Powder Coating
Standards & Compliance	EN442, ISO 9000, ISO 14001, SA8000
