

# VGA to 8 BNC Female Breakout Cable

VGA 15-Pin male breakout cable to 8 BNC female cable. It is designed for splitting a VGA signal into multiple BNC outputs for connecting to professional video equipment or CCTV systems.

## Product Overview

### Professional VGA to 8 BNC Breakout Solution

This high-quality breakout cable is designed to seamlessly interface between 15-pin VGA outputs and professional BNC-based video equipment. It is engineered for stability and signal integrity, making it an ideal choice for CCTV systems, broadcast hardware, and complex video distribution setups. With its robust construction, this cable ensures reliable transmission for professional-grade security and monitoring applications.

## Technical Specifications

Input Connector	15-pin VGA Male
Output Connectors	8 x BNC Female
Primary Application	CCTV, Professional Video, Signal Distribution

## Features

### Construction Details

- High-quality signal transmission
- Durable cable shielding
- Professional-grade connector housing
