Product Overview

Professional Grade Recovery Tool

This vibrating EVA foam roller is engineered for deep tissue massage and efficient muscle recovery. Featuring a high-density, textured surface, it targets specific muscle groups and trigger points to alleviate soreness and improve flexibility. With four distinct vibration intensity levels and a portable, durable design, it is an essential tool for athletes and fitness professionals seeking effective pain relief on the go.

Technical Specifications

Material	High-density EVA Foam
Length	32 cm

Performance & Features

Vibration Settings	4
Battery Runtime	2-3 hours per charge
Operation	One-button control, Battery indicator lights
Power Source	Rechargeable Lithium-ion
