

Video Door Phone Intercom System

This video door phone intercom system enhances security and convenience for residential or commercial properties. It includes an indoor monitor with a high-resolution display and an outdoor camera unit.

Overview

Enhanced Security and Convenience

The Video Door Phone Intercom System provides a robust security solution suitable for both residential and commercial properties. Featuring a high-resolution indoor monitor and a durable outdoor camera unit, the system enables seamless two-way audio communication and remote door unlocking capabilities. With wide-angle viewing and infrared night vision, it ensures clear monitoring in various lighting conditions.
