

Video Door Phone Kit with Color Display

This video door phone kit provides a way to monitor and communicate with visitors. The kit includes an indoor monitor with a color display and an outdoor camera with a wide-angle lens.

Overview

Smart Home Entry Security

The Video Door Phone Kit offers a modern, secure alternative to traditional door viewers, featuring a clear 2.8-inch TFT color display for easy visitor identification. Designed for convenience, the system operates on standard AA batteries, eliminating the need for complex hard-wired installations or constant power consumption. With an integrated voice message-leaving function, hosts can effortlessly screen visitors and review missed calls at their convenience.
