

Video Intercom System with Pager

This interphone and pager system enables secure communication with visitors before granting access. The system features a built-in camera and display screen for visual verification, along with intuitive controls and clear audio.

Product Overview

Secure Access Communication

This video intercom system with an integrated pager provides a secure and convenient solution for managing visitor access. Featuring a built-in camera and display screen, it allows for reliable visual verification of individuals before granting entry. The system is designed for ease of use with intuitive controls and clear audio communication, making it an ideal choice for both residential and commercial security applications.
